

Rural Child Poverty Nutrition Center

Food Access and Program Awareness Survey

We are researchers from the University of Kentucky working with local community groups to improve resources for families with children to access food. We are looking for volunteers to complete a survey about personal experiences with food and food programs offered in your community.

The survey is anonymous which means no names or identifying information will be collected. The online survey will take 10 to 15 minutes to complete; if you do not have access to the internet, you can also complete it as a paper and pencil survey. Contact Chris Bollinger for info about where you can pick up a paper and pencil version of the survey.

Please help us reduce hunger in your community by taking the survey.

For more information, contact:

Christopher R. Bollinger
